

## Minutes of the Safety Meeting

November 19<sup>th</sup>, 2020

Present: Christine Burchstead (Chair/Library), Patti Whitcomb (Recycling), Keith Hebert (Highway), Jason Colburn (No Walpole Fire), Brad Nash (Town Hall)

Not Present: Justin Sanctuary (Police)

Next Meeting:

- February 18<sup>th</sup> at 2pm
- Jason Colburn will Chair the next meeting.

Review of Injuries:

- An injury happened at the Recycling Center. A person delivering pallets to the Recycling Center fell from the back of their own truck and was transported to hospital by ambulance.

Old Business:

- Due to an increasing number of Covid-19 cases in the State of NH, CPR and extinguisher training is unlikely to happen.
- Brad believes that the Police Dept. did not purchase any Ionic Breeze's, but they are proven to be highly effective at removing many types of air pollutants, germs and viruses.
- The Library has contacted E.E. Houghton Company about getting the midpoint exit sign installed that the Fire Chief requested.

New Business:

- The Police are now carrying a pressurized Water/Foam Extinguisher in a couple of the cruisers. These are great for organic materials, plastics, and petroleum items. Do not use them on electrical fires. In just a few minutes they can quickly and easily be refilled inhouse and returned to service.
- Brad encouraged everyone to not take chances with covid-19. He has a friend that has it for the second time and they are not doing well.
- Please Stay Safe!
